

LONE U. S. SURVIVOR OF ZR-2 DISASTER SAVED BY LEAPING

NORMAL WALKER OF TEXAS
GIVES FIRST DETAILS OF DIR-
IGIBLE TRAGEDY

Howden, England, Aug. 26.—Norman Walker, sole American survivor of the wrecked airship ZR-2, today gave the first circumstantial account of the disaster which Wednesday destroyed the great superdirigible and every American member of the crew on board except himself.

Walker was seen at the Howden airfield, near Hull, where he has just been rescued after the terrible experience through which he passed unscathed. He comes from Commerce, Texas, and was a rigger on the ill-fated airship. He is of boyish appearance, aged 20, and of a wiry build.

"We were all in the highest spirits when we left Howden on the trial flight," he said. "We sailed over the North sea first and then started down the north coast to Putham.

"A thick fog developed, so it was found impossible to land at Putham. In fact, the fog was so dense we were more or less lost, although we knew the general locality.

"We were flying at a height of about 3,500 feet, with the wireless keeping in touch with both Howden and Putham. The ship was behaving finely and there was not a sign of weakness anywhere.

"We drove out over the sea again and as the fog continued bad, we flew along the coast until we sighted land at Hull. We then flew across to Howden where it was decided to land at 6:30 p. m., so we sailed over Hull again. We encircled Hull twice, and the speed trial was completed without a hitch.

"A test of the ship's control then began. I was at the lower rudder, proceeding back to the tail, and had just reached the cockpit when there was a tremendous crash. The girders amidship broke and the ship split in halves.

"Both the tail and the nose immediately pointed downward and the halves started to descend toward the Humber.

"I certainly cannot describe my sensation, but I thought my time had come.

"I made a rush for the tail to get a parachute, but I found two of my English comrades, Harry Bateman and Walter Potter, were already there. I knew there was only one chute there for the three of us. Bateman had the chute and jumped, but it fouled and he hung to the tail of the dirigible.

"Both Potter and I started to run forward for other parachutes, but just as I got to the keel there came an explosion of either a petrol tank or hydrogen, and flames immediately began to sweep the forward part of our half of the ship.

"What was happening to our comrades in other parts of the dirigible I don't know. Most of the officers and crew were amidships, either seated or lying in their bunks, when the girders broke. At least one man dropped through the gap made by the break. Possibly others did, but probably most of them rolled forward when the airship's nose went down.

"I ran back to the tail to get away from the fire in the bag. Bateman, Potter and I got into the cockpit. By this time the gas was becoming depleted and the ship was shooting down rapidly. The forward half had already beaten us toward the water. We could not use a parachute then, as we were too low—only a few hundred feet up.

"I saw we were going to land in the water, so I climbed on the fabric forward of the tail cup. I couldn't tell how fast we were falling, but when I thought we were going to strike, I jumped.

"I was surprised to find my feet striking the bottom. I had landed in four feet of water near shore. Both my comrades stuck to the ship and continued to cling to it as it struck. I managed to scramble aboard the wreckage, and the three of us were picked up by a tug."

Search of Wreck for Bodies Continues

Hull, England, Aug. 26.—The entirely submerged forepart of the ZR-2 which fell flaming and sank when the great dirigible broke in two, was found by a searching party today half a mile

SHERIFF H. H. MESTER

To H. H. Mester, sheriff of Sangamon county, fell the duty of arresting Gov. Len Small of Illinois, indicted for embezzlement of state funds.

IMMENSITY OF OP- ERATIONS OF SWIN- DLE RING GROWS

WERE ATTEMPTING TO FLOAT
\$500,000,000 ORGANIZATION TO
CONDUCT OPERATIONS

(By United Press.)
Chicago, Aug. 26.—Operation of Chas. W. French, alleged king of swindlers, went into the half billion class and took on an international aspect today.

Continuing his confession before federal authorities, Alvin E. Harshman, French's secretary, revealed plans for the organization of a \$500,000,000 concern through which he said financiers not only in America, but of Canada, England and Mexico were to be "reeced."

French and his associates were ready to launch the concern when federal agents stepped in and stopped their game, Harshman said.

The deal, had it gone through, would have been the most gigantic game, legal or otherwise, ever attempted. Assistant District Attorney Clinnen declared.

Harshman said French conceived the idea, but that he, Harshman, put it on paper. The plan, Harshman declared, was to organize the \$500,000,000 concern with American, Canadian, Mexican and English capital and to take a "flyer" at all the big industries. Purchase and operation of big automobiles, locomotives, leather and steel and rubber companies were proposed in the project, he said.

Governor Takes to the Woods

St. Paul, Aug. 26.—Hay fever is no respecter of persons. Governor Prens and his family were off for the north woods today to escape it. They will spend some time at Grand Marais.

up stream from where the rear part lies.

A giant crane will be used to raise the mass of wrecked girders and framework. All night long while flares and searchlights lighted the low river searching parties made vain efforts to secure more bodies of the forty-three officers and men who perished. Today hope of finding other bodies was virtually abandoned.

Air ministry officials continued the official inquiry which the British are making. A final inspection of the wreckage of what is left of what was the world's greatest dirigible was made at low tide today. The ship is a total loss, investigators said.

Loss Shared Jointly

Washington, Aug. 26.—The United States and Great Britain will jointly share in the loss from the complete destruction of the ZR-2 for which the United States was to have paid \$2,000,000 according to a memorandum made public to the British admiralty by the navy department of which \$500,000 is returnable to this government.

HEAVY RAINS FALL OVER WISCONSIN, MINN. AND DAKOTA

AT DEVILS LAKE 4.25 INCHES
FALL IN ABOUT FIVE
HOURS

(By United Press.)
St. Paul, Aug. 26.—A heavy rainstorm originating in northeastern North Dakota yesterday was still pouring out volumes of rain over parts of Minnesota and Wisconsin today.

The weather bureau here said 1.1 inches of rain fell here in thirty-two minutes just before daylight today. The total rainfall in an hour and a half was 1.46.

At Fargo there was 2.52 inches in an hour and a half. Stations between Fargo and St. Paul reported a similar deluge.

The storm was traveling southeast today and in the mid morning was over central Wisconsin.

The heaviest rainfall was reported at Devils Lake yesterday where 4.25 inches fell in five hours. There were some washouts on the Great Northern at Devils Lake. Telegraph and telephone service suffered from heavy lightning. Trees were blown down across wires at some places.

Three Barns Burned
Devils Lake, N. D., Aug. 26.—Three barns, several head of livestock and two granaries were burned here yesterday during the heavy electrical storm. It was the heaviest rainfall in sixteen years according to weather bureau reports.

Investigate Cause of Disaster; American Investigator Appointed

(By United Press.)
London, Aug. 26.—Commander N. T. Dyer, of St. Paul, has been appointed American representative on the court of inquiry which will investigate the cause of the ZR-2 disaster, it was announced today. Dyer watched the construction of the dirigible.

Inquest Being Held

Hull, England, Aug. 26.—A formal inquest upon the body of Lieutenant Charles G. Little, United States navy, of Newburyport, Massachusetts, who perished with forty-two others when the ZR-2 exploded and fell in the Humber river, was opened here today.

More Bodies Found

Hull, England, Aug. 26.—Three more bodies were brought up by divers today from the wreckage of the dirigible ZR-2 which fell into the river Humber Wednesday. One of the bodies was that of Alfred L. Lofkin, of Lake Charles, Louisiana, one of the sixteen Americans who perished when the big flying ship plunged to destruction. The other two were the remains of British air sailors.

WORST OF INFANTILE PLAQUE HELD OVER

MEDICAL ASSOCIATION BELIEVES
PARALYSIS HAS REACHED
HEIGHT IN STATE

Duluth, Aug. 26.—A minor outbreak of infantile paralysis is apparently spreading over the state and efforts have been made to have an officer of the Minnesota Public Health association describe its extent and the fight which has been made against it. Dr. C. B. Drake, St. Paul, secretary of the Minnesota Medical association, said at the opening of the association's three day convention.

Three hundred physicians and surgeons from all parts of the state are attending the sessions, which will conclude tomorrow.

"The infantile epidemic was most severe in the vicinity of Park Rapids, where several deaths have been reported," Dr. Drake said. "It has since spread to a number of other points. Physicians believe, however, that the epidemic has reached its height and will gradually pass away. Infantile paralysis subsides with the coming of cold weather."

London, Aug. 26.—Mathias Erzberger, German centrist leader, has been murdered according to a news agency dispatch from Berlin today.

PRESIDENT WILL DIS- CUSS DEBS RELEASE

(By United Press.)
Washington, Aug. 26.—President Harding and Attorney General Daugherty at a conference tomorrow will discuss the release from prison of Eugene V. Debs, socialist leader, it was learned at the department of justice today.

It is understood that the main question to be determined is whether the action the administration plans to take on the request should be announced now or delayed until the formal ratification of the German peace treaty.

DE VALERA AGAIN ELECTED PRESIDENT OF IRISH REPUBLIC

IN ADDRESS TO DAIL EIREANN HE
SAID RESPONSIBILITY FOR WAR
WOULD REST ON ENGLAND

IF SHE INSISTS UPON FORCING
HER WILL UPON THE IRISH
AGAINST THEIR CONSENT

(By United Press.)
Dublin, Aug. 26.—Eamonn DeValera was today formally and unanimously re-elected president of the Irish republic.

The Dail Eireann enthusiastically acclaimed its chief at a public session at the mansion house.

"If Great Britain insists upon forcing her will upon the Irish, the responsibility for the war that will follow will rest with the British government," DeValera declared in his address to the Dail.

Promptly at noon the Irish chief commenced reading the Dail's reply to Lloyd George's offer saying that the British proposal had been rejected unanimously.

"The door is still wide open," DeValera declared after he had finished. Mickey Collins, minister of finance, told the Dail that it was planning to negotiate loans of 100,000 pounds sterling in Ireland and \$20,000,000 in America.

CIVIL POSSES PRE- PARE TO RESIST INVADING MINERS

SHERIFF SAYS HE MUST DO HIS
DUTY AND PROTECT LOGAN
COUNTY PROPERTY

(By United Press.)
Logan, W. Va., Aug. 26.—Industrial crusaders and armed civilians were nearing an open clash near here today.

Armed miners who massed at Marmet and began to march toward Mingo county coal fields in protest against martial law here, expected to march into Logan county today.

Civilian posses commanded the road and other approaches. They were equipped with rifles and shot guns. Machine guns were in readiness and other preparations have been made to resist the "invaders."

Two airplanes were reported soaring over the surrounding country today. One of the scouts was said to be under command of the county officials. The other plane was a mysterious. One informant declared it was operated by miners' forces.

The vanguard was reported to be cutting telephone and telegraph wires as it proceeded.

"We must do our duty and protect Logan with all our force available," Sheriff Chaffin said.

He massed his voluntary army before dawn today and distributed handbills at different points.

Automobiles, air crafts and bicycles were being utilized for scouting today to report the move of the miners' force whose camp sites were cited during the night. Chaffin declared today he did not look for an attack before daylight or possibly tomorrow.

First Skirmish Reported
Williamson, W. Va., Aug. 26.—The first bullet exchanged in the threatened West Virginia mine war came early today according to reports received here.

Miners marching through Logan county to make a demonstration against martial law were establishing contact with armed civilians who are resisting the invasion, Sheriff Penson was advised by telegraph.

The skirmish was brief, Penson was told. Only the vanguard of the miners' force was engaged. No casualties were reported.

Battle Impends

Logan, W. Va., Aug. 26.—West Virginia marching miners entered Logan county today. Scouts for county authorities were planning to resist the invasion, it was reported at noon today.

Sheriff Don Chaffin issued final instructions in preparation for a battle with miners expected before tomorrow.

Armed forces of miners were cited near Sharples, eleven miles east of here. Civilian posses equipped with machine guns and rifles are commanding the approach. Another detachment of men passed through Peytonia earlier, authorities were advised. The miners were said to be making good time.

Situation Reported Acute

Washington, Aug. 26.—The situation in the Mingo county coal fields "war area" is "acute," reports of the army officers to the war department received at noon stated.

An army airplane is in Charleston to watch the movement of the seven thousand miners reported marching on Mingo and Logan coal fields, Assistant Secretary of War Wainwright announced.

Miners Are Halted By Union Officials

Madison, W. Va., Aug. 26.—The march of miners was halted here today.

Intercepting the advance guard which had entered Logan county this morning, President Keeney, of district No. 17, and Secretary Mooney, union officials, succeeded in persuading the men to return to Madison where a mass meeting was held.

More than seven thousand miners who formed the army of marchers attended the meeting. Keeney and Mooney and several of the leaders chosen by the men addressed the meeting.

The union officials told them, it was understood, that a continuation of the march would only end in disaster and probably slaughter of many of their own number.

DOCTOR CHAGAS

PLOT UNMASKED TO LOAD BANKS WITH BOGUS SECURITIES

THREE MILLION DOLLARS WORTH
OF BOGUS NOTES AND
BONDS FOUND

(By United Press.)
Chicago, Aug. 26.—Unmasking the plot of Charles W. French and his confederates to line the vaults of the nation's banks with bogus securities narrowly averted a panic, Assistant District Attorney John Clinnen announced today.

Examination of the papers seized in the Milwaukee apartment of Alva Harshman, French's secretary and confederate, revealed \$3,000,000 worth of notes and securities.

Arrest of Z. W. Davis, former millionaire of Canton and Cleveland was ordered following a conference between Harshman and Clinnen. Harshman's cache showed \$500,000 worth of notes signed by Davis and \$2,500,000 in notes signed by Harshman and endorsed by the Development Security Company, of which French is head.

"We interrupted French just in time to prevent a panic among many banks and forty industrial concerns," said Clinnen.

French's plan of lining the vaults of banks with worthless securities would have rocked the financial world and hindered industry.

ONE MAN CONTROLS COAL PRICES IN STATE

(By United Press.)
St. Paul, Aug. 26.—One man virtually controls anthracite coal prices in Minnesota, the state department of agriculture concluded today in a report of its investigation of coal prices and distribution.

The report submitted to Governor Prens by N. J. Holmquist, commissioner, makes no recommendations but reports "conclusions."

Half of the anthracite coal supply in Minnesota is controlled by one man who periodically announces the price, thus virtually controlling anthracite prices in Minnesota, the report said.

Independent operators have from time to time been refusing coal at the docks except at retail prices.

The practice of coal dealers in boosting the price from May to September has no counter part in the business world. The excuse is that it induces early buying.

The report said legislative action should be taken "relative to the coal industry."

LIVESTOCK MARKET OPEN ON LABOR DAY

(By United Press.)
St. Paul, Aug. 26.—The South St. Paul livestock market will be open for business Labor day, it was announced today. Many livestock exchanges are adopting Labor day as a holiday but the South St. Paul market interests agreed to trade on Labor day the same as any other day.

U. S. WASHES HANDS LEAGUE OF NATIONS IN GERMAN TREATY

DOES NOT RATIFY SHANTUNG
AWARD OR OTHER THINGS OB-
JECTIONABLE TO SENATE

(By United Press.)
Washington, Aug. 26.—The United States by the new peace treaty with Germany has made clear in exact details its future international policy. By the treaty this government washes its hands off any connection with the league of nations, the Shantung award to Japan, the international labor organization and other provisions obnoxious to the United States senate.

The treaty secures recovery by Germany of American rights under the Knox peace resolution and all benefits accrued to the United States under the treaty of Versailles despite the fact that this government has not ratified the latter document. Official peace with Germany now awaits ratification of the new treaty by the American senate and German reichstag.

The United States declined to be bound by any decision of the league of nations council or assembly.

MAN KILLED IN JAIL DELIVERY

(By United Press.)
Minneapolis, Aug. 26.—One man was killed in a sensational jail break here today.

Ray Douglas of Amboy, Minnesota, was killed when he fell two hundred feet from a window on the fourth floor of the courthouse. A companion, Alfred Oddyn, held for Vancouver police, had escaped via a rope made of a roller towel, rain coat and a sweater. Douglas was following him and the improvised rope broke.

Two other prisoners who had left the fourth floor corridor were captured. Authorities were unable to learn how the men escaped from their cell.

IRISH REJECT PEACE PROPOSAL

ARE READY TO NEGOTIATE ON
THE PRINCIPLE OF GOVERN-
MENT BY THE GOVERNED

(By United Press.)
London, Aug. 26.—The Sinn Fein has rejected the British peace proposal it was officially announced from Downing street today.

The British cabinet met at noon today to consider the reply of the Dail Eireann. The time limit within which the Sinn Fein must accept the government's proposal as a peace basis was to be set, it was believed.

The British press today agreed that the Dail's reply worried the government but "left a loop hole."

"I read the proposal of the British government before the Dail Eireann," said DeValera's reply to Lloyd George, "and the parliament unanimously rejected them."

The Dail is ready to appoint representatives to negotiate on a basis of the broad principles of "government by the governed."

"We refuse to accept conditions involving the surrender of our whole possessions," said the Sinn Fein reply.

Premier Profoundly Disappointed

London, Aug. 26.—Further peace negotiations between Great Britain and Ireland will be futile unless some definite progress is made toward acceptance of a basis of settlement, Premier Lloyd George declared today in a communication to Eamonn DeValera.

Lloyd George replied to the Sinn Fein refusal to accept the British terms that he was profoundly disappointed that Ireland failed to recognize the government had gone to the limit in its offer.

The premier said he considered the British proposal a complete fulfillment of the wish of the people for a government with consent of the governed which he said contained broad guiding principles of settlement.

Lloyd George's reply was forwarded after the British cabinet meeting in Downing street, had completely gone over the Sinn Fein refusal.

LONE U. S. SURVIVOR OF ZR-2 DISASTER SAVED BY LEAPING

NORMAL WALKER OF TEXAS
GIVES FIRST DETAILS OF DIR-
IGIBLE TRAGEDY

Howden, England, Aug. 26.—Norman Walker, sole American survivor of the wrecked airship ZR-2, today gave the first circumstantial account of the disaster which Wednesday destroyed the great superdirigible and every American member of the crew on board except himself.

Walker was seen at the Howden airdrome, near Hull, where he has just been brought after the terrible experience through which he passed unscathed. He comes from Commerce, Texas, and was a rigger on the ill-fated airship. He is of boyish appearance, aged 20, and of a wiry build.

"We were all in the highest spirits when we left Howden on the trial flight," he said. "We sailed over the North sea first and then started down the north coast to Putham.

"A thick fog developed, so it was found impossible to land at Putham. In fact, the fog was so dense we were more or less lost, although we knew the general locality.

"We were flying at a height of about 3,500 feet, with the wireless keeping in touch with both Howden and Putham. The ship was behaving finely and there was not a sign of weakness anywhere.

"We drove out over the sea again and as the fog continued bad, we flew along the coast until we sighted land at Hull. We then flew across to Howden where it was decided to land at 6:30 p. m., so we sailed over Hull again. We encircled Hull twice, and the speed trial was completed without a hitch.

"A test of the ship's control then began. I was at the lower rudder, proceeding back to the tail, and had just reached the cockpit when there was a tremendous crash. The girders amidship broke and the ship split in halves.

"Both the tail and the nose immediately pointed downward and the halves started to descend toward the Humber.

"I certainly cannot describe my sensation, but I thought my time had come.

"I made a rush for the tail to get a parachute, but I found two of my English comrades, Harry Bateman and Walter Potter, were already there. I knew there was only one chute there for the three of us. Bateman had the chute and jumped, but it fouled and he hung to the tail of the dirigible.

"Both Potter and I started to run forward for other parachutes, but just as I got to the keel there came an explosion of either a petrol tank or hydrogen, and flames immediately began to sweep the forward part of our half of the ship.

"What was happening to our comrades in other parts of the dirigible I don't know. Most of the officers and crew were amidships, either seated or lying in their bunks, when the girders broke. At least one man dropped through the gap made by the break. Possibly others did, but probably most of them rolled forward when the airship's nose went down.

CIVIL POSSES PRE- PARE TO RESIST INVADING MINERS

SHERIFF SAYS HE MUST DO HIS
DUTY AND PROTECT LOGAN
COUNTY PROPERTY

(By United Press.)
Logan, W. Va., Aug. 26.—Industrial crusaders and armed civilians were nearing an open clash near here today.

Armed miners who massed at Marmet and began to march toward Mingo county coal fields in protest against martial law here, expected to march into Logan county today.

Civilian posses commanded the road and other approaches. They were equipped with rifles and shot guns. Machine guns were in readiness and other preparations have been made to resist the "invaders."

Two airplanes were reported soaring over the surrounding country today. One of the scouts was said to be under command of the county officials. The other plane was a mysterious. One informant declared it was operated by miners' forces.

The vanguard was reported to be cutting telephone and telegraph wires as it proceeded.

"We must do our duty and protect Logan with all our force available," Sheriff Chafin said.

He massed his voluntary army before dawn today and distributed handbills at different points.

Automobiles, air crafts and bicycles were being utilized for scouting today to report the move of the miners' force whose camp sites were cited during the night. Chafin declared today he did not look for an attack before nightfall or possibly tomorrow.

First Skirmish Reported

Williamson, W. Va., Aug. 26.—The first bullet exchanged in the threatened West Virginia mine war came early today according to reports received here.

Miners marching through Logan county to make a demonstration against martial law were establishing contact with armed civilians who are resisting the invasion, Sheriff Penson was advised by telegraph.

The skirmish was brief, Penson was told. Only the vanguard of the miners' force was engaged. No casualties were reported.

Battle Impends

Logan, W. Va., Aug. 26.—West Virginia marching miners entered Logan county today. Scouts for county authorities were planning to resist the invasion, it was reported at noon today.

Sheriff Don Chafin issued final instructions in preparation for a battle with miners expected before tomorrow.

Armed forces of miners were cited near Sharples, eleven miles east of here. Civilian posses equipped with machine guns and rifles are commanding the approach. Another detachment of men passed through Peytonia earlier, authorities were advised. The miners were said to be making good time.

Situation Reported Acute

Washington, Aug. 26.—The situation in the Mingo county coal fields "war area" is "acute," reports of the army officers to the war department received at noon today.

An army airplane is in Charleston to watch the movement of the seven thousand miners reported marching on Mingo and Logan coal fields, Assistant Secretary of War Wainwright announced.

Miners Are Halted By Union Officials

Madison, W. Va., Aug. 26.—The march of miners was halted here today.

Intercepting the advance guard which had entered Logan county this morning, President Keeney, of district No. 17, and Secretary Mooney, union officials, succeeded in persuading the men to return to Madison where a mass meeting was held.

More than seven thousand miners who formed the army of marchers attended the meeting. Keeney and Mooney and several of the leaders chosen by the men addressed the meeting.

The union officials told them, it was understood, that a continuation of the march would only end in disaster and probably slaughter of many of their own number.

PLOT UNMASKED TO LOAD BANKS WITH BOGUS SECURITIES

THREE MILLION DOLLARS WORTH
OF BOGUS NOTES AND
BONDS FOUND

(By United Press.)
Chicago, Aug. 26.—Unmasking the plot of Charles W. French and his confederates to line the vaults of the nation's banks with bogus securities narrowly averted a panic, Assistant District Attorney John Clinnen announced today.

Examination of the papers seized in the Milwaukee apartment of Alva Harshman, French's secretary and confederate, revealed \$3,000,000 worth of notes and securities.

Arrest of Z. W. Davis, former millionaire of Canton and Cleveland was ordered following a conference between Harshman and Clinnen. Harshman's cache showed \$500,000 worth of notes signed by Davis and \$2,500,000 in notes signed by Harshman and endorsed by the Development Security Company, of which French is head.

"We interrupted French just in time to prevent a panic among many banks and forty industrial concerns," said Clinnen.

French's plan of lining the vaults of banks with worthless securities would have rocked the financial world and hindered industry.

ONE MAN CONTROLS COAL PRICES IN STATE

(By United Press.)
St. Paul, Aug. 26.—One man virtually controls anthracite coal prices in Minnesota, the state department of agriculture concluded today in a report of its investigation of coal prices and distribution.

The report submitted to Governor Preus by N. J. Holmquist, commissioner, makes no recommendations, but reports "conclusions."

Half of the anthracite coal supply in Minnesota is controlled by one man who periodically announces the price, thus virtually controlling anthracite prices in Minnesota, the report said.

Independent operators have from time to time been refusing coal at the docks except at retail prices.

The practice of coal dealers in boosting the price from May to September has no counter part in the business world. The excuse is that it induces early buying.

The report said legislative action should be taken "relative to the coal industry."

LIVESTOCK MARKET OPEN ON LABOR DAY

(By United Press)
St. Paul, Aug. 26.—The South St. Paul livestock market will be open for business Labor day, it was announced today. Many livestock exchanges are adopting Labor day as a holiday but the South St. Paul market interests agreed to trade on Labor day the same as any other day.

U. S. WASHES HANDS LEAGUE OF NATIONS IN GERMAN TREATY

DOES NOT RATIFY SHANTUNG
AWARD OR OTHER THINGS OB-
JECTABLE TO SENATE

(By United Press.)
Washington, Aug. 26.—The United States by the new peace treaty with Germany has made clear in exact details its future international policy.

By the treaty this government washes its hands off any connection with the league of nations, the Shantung award to Japan, the international labor organization and other provisions obnoxious to the United States senate.

The treaty secures recovery by Germany of American rights under the Knox peace resolution and all benefits accrued to the United States under the treaty of Versailles despite the fact that this government has not ratified the latter document. Official peace with Germany now awaits ratification of the new treaty by the American senate and German reichstag.

The United States declined to be bound by any decision of the league of nations council or assembly.

MAN KILLED IN JAIL DELIVERY

(By United Press)
Minneapolis, Aug. 26.—One man was killed in a sensational jail break here today.

Ray Douglas of Amboy, Minnesota, was killed when he fell two hundred feet from a window on the fourth floor of the courthouse. A companion, Alfred Oddyn, held for Vancouver police, had escaped via a rope made of a roller towel, rain coat and a sweater. Douglas was following him and the improvised rope broke.

Two other prisoners who had left the fourth floor corridor were captured. Authorities were unable to learn how the men escaped from their cell.

IRISH REJECT PEACE PROPOSAL

ARE READY TO NEGOTIATE ON
THE PRINCIPLE OF GOVERN-
MENT BY THE GOVERNED

(By United Press.)
London, Aug. 26.—The Sinn Fein has rejected the British peace proposal it was officially announced from Downing street today.

The British cabinet met at noon today to consider the reply of the Dail Eireann. The time limit within which the Sinn Fein must accept the government's proposal as a peace basis was to be set, it was believed.

The British press today agreed that the Dail's reply worried the government but "left a loop hole."

"I read the proposal of the British government before the Dail Eireann," said DeValera's reply to Lloyd George, "and the parliament unanimously rejected them."

The Dail is ready to appoint representatives to negotiate on a basis of the broad principles of "government by the governed."

"We refuse to accept conditions involving the surrender of our whole possessions," said the Sinn Fein reply.

Premier Profoundly Disappointed

London, Aug. 26.—Further peace negotiations between Great Britain and Ireland will be futile unless some definite progress is made toward acceptance of a basis of settlement, Premier Lloyd George declared today in a communication to Eamonn DeValera.

Lloyd George replied to the Sinn Fein refusal to accept the British terms that he was profoundly disappointed that Ireland failed to recognize the government had gone to the limit in its offer.

The premier said he considered the British proposal a complete fulfillment of the wish of the people for a government with consent of the governed which he said contained broad guiding principles of settlement.

Lloyd George's reply was forwarded after the British cabinet meeting in Downing street, had completely gone over the Sinn Fein refusal.

constant touch with the state department. The reason is that it is too late in the season to possibly get any paving done. Advertising for bids and letting of the contract would extend well into the frost season. The plan of the highway department now is to advertise bids this fall and let the contract so as to have work on the hard-surfacing commence the first of May, 1922.

Immediate Disposal of Seized Liquor Ordered

(By United Press)

Washington, Aug. 26.—Federal Prohibition Commissioner Haynes in a general order today to prohibition officials, asked the immediate destruction or disposal of stocks of liquor seized in enforcing the national prohibition law. Automobiles, vessels and other vehicles taken from bootleggers must be disposed of, and a report made by each official before September 15.

Storage of all confiscated liquor and property now costs the government thousands of dollars daily, Haynes said.

Two Men Arrested and Held in Fargo

Fargo, Aug. 26.—George Williams, Chicago, and Harry Hall, St. Paul, were held under \$1500 bond today on charges of carrying concealed weapons. They were arrested by the sheriff who told the district attorney they were wanted in other cities and said he would have their record in a few days.

Cutter Looks For Missing Boat

Astoria, Wash., Aug. 26.—The revenue cutter Snohomish has set out in search of the lonely lifeboat containing two officers and nine men from the disabled freighter Candian Importer according to a radio dispatch from Peake Bay today. The little craft is supposed to be making for shore. The Importer is still afloat with the captain and twenty-two of the crew on board.

Loot Recovered

Devils Lake, N. D., Aug. 26.—\$306 worth of postage stamps stolen from the postoffice at Oberon, North Dakota, and a quantity of jewelry and silks stolen from a general store at Larimore were recovered here today when two men were arrested on charges of burglary. Authorities raided a rooming house and arrested Wm. Noland and Jesse Lee.

Copying Aunty.

Dorothy's Aunt Louise is an operatic singer, and after a visit to the city where the aunt lives the family heard Dorothy singing fearfully. They rushed to her aid, only to be told "Nothing is the matter. I'm singing like Aunty Lou."

American Troops Will Stay on Rhine Until Treaty Is Ratified

(By United Press)

Washington, Aug. 26.—American troops will stay on the Rhine until the new treaty with Germany is ratified by both parties according to authoritative information received here today.

Ratification will be considered in the American senate and the German reichstag beginning late in September and should require comparatively short time, it was said here. Pending this ratification, however, status of relations between Germany and the United States remains exactly where they have been, it was said.

"Why Southpaws."

The word "southpaw," used frequently in the course of references to baseball games, is a bit of slang which has crept into the language during the last few years—a colloquialism which has behind it rather more of a logical pedigree than most slang words can claim.

That the batter may not have to face the rays of the setting sun at any time of the year, a baseball diamond is usually laid out so that the batter's box faces due east. The pitcher, therefore, faces westward, while his right hand is toward the north and his left hand is toward the south. As the majority of pitchers are right-handed, it was only natural that an exception to this rule should be singled out for a certain specific title—and the name "southpaw" was adopted on account of the usual points of the compass in connection with the diamond itself. The eccentricities of Rube Waddell and other "southpaws" have made the name synonymous with "erratic," so far as baseball language is concerned, though there is no medical support for the theory that left-handed persons are more peculiar than those who use their right hands.

Aerial Time Tables.

So important has become commercial aviation in France that there is being published a monthly time table of all the air services operating in France and allied countries. This time table, known as L'Indicateur Aerien, gives such information as the time of departure and arrival, routes, type of plane employed, weight of luggage allowed, rates, and so on. The little publication appears on the first of every month.—Scientific American.

Call for Much Shelf Room.

Five miles of shelving will be erected in a new building being constructed by the French government, for the filing of more than 100,000 volumes and almost as many pamphlets, etc., which they have collected. The collection of manuscripts, photographs and war records is appalling as to numbers, and there seems to be no limit to the effort of collecting.

Optimism

Business progress depends largely upon optimism. The greatest rewards await those who are planning to go ahead, carefully and conservatively. The period of readjustment has its trials, but business conditions are fundamentally sound and the future is secure.

We invite commercial accounts.

Mrs. M. Seyferth entertained the young folks of the Beach at a five-hundred party Friday, from 2 to 5. Those present were Miss Eunice and Nellie Smith, Miss Grace Irving, Miss Marie Ryan, Miss Winona Moore, of Minneapolis; Mr. O'Brien and Mr. Mitchell of Kansas City, Mo.

"WHAT'S YOUR HURRY" 7315

No hard surfacing will be done on the Jefferson Highway between Roy-alton and Little Falls this year. This information is given out by J. E. Viner, county engineer, who is in

Little Money Saver Says:

If your linoleum is faded and worn you can easily and economically restore the original bright pattern with LIQUID GRANITE LINOLEUM VARNISH.

This durable varnish is not affected by either cold or hot water and with its wonderful wear resisting qualities will add years of service to your linoleum whether it is old or new.

Our telephone number is 57, just ask us to deliver a quart, use it, and it you are not satisfied with the results, the varnish will cost you nothing.

constant touch with the state department. The reason is that it is too late in the season to possibly get any paving done. Advertising for bids and letting of the contract would extend well into the frost season. The plan of the highway department now is to advertise bids this fall and let the contract so as to have work on the hard-surfacing commence the first of May, 1922.

Immediate Disposal of Seized Liquor Ordered

(By United Press)

Washington, Aug. 26.—Federal Prohibition Commissioner Haynes in a general order today to prohibition officials, asked the immediate destruction or disposal of stocks of liquor seized in enforcing the national prohibition law. Automobiles, vessels and other vehicles taken from bootleggers must be disposed of, and a report made by each official before September 15.

Storage of all confiscated liquor and property now costs the government thousands of dollars daily, Haynes said.

Two Men Arrested and Held in Fargo

Fargo, Aug. 26.—George Williams, Chicago, and Harry Hall, St. Paul, were held under \$1500 bond today on charges of carrying concealed weapons. They were arrested by the sheriff who told the district attorney they were wanted in other cities and said he would have their record in a few days.

Cutter Looks For Missing Boat

Astoria, Wash., Aug. 26.—The revenue cutter Snohomish has set out in search of the lonely lifeboat containing two officers and nine men from the disabled freighter Candian Importer according to a radio dispatch from Peake Bay today. The lifeboat is supposed to be making for shore. The importer is still afloat with the captain and twenty-two of the crew on board.

Loot Recovered

Devils Lake, N. D., Aug. 26.—\$300 worth of postage stamps stolen from the postoffice at Oberon, North Dakota, and a quantity of jewelry and silks stolen from a general store at Larimore were recovered here today when two men were arrested on charges of burglary. Authorities raided a rooming house and arrested Wm. Noland and Jesse Lee.

Copying Aunty.

Dorothy's Aunt Louise is an operatic singer, and after a visit to the city where the aunt lives the family heard Dorothy screaming frightfully. They rushed to her aid, only to be told: "Nothing is the matter. I'm singing like Aunty Lou."

Optimism

Business progress depends largely upon optimism. The greatest rewards await those who are planning to go ahead, carefully and conservatively. The period of readjustment has its trials, but business conditions are fundamentally sound and the future is secure.

We invite commercial accounts.

American Troops Will Stay On Rhine Until Treaty Is Ratified

(By United Press)

Washington, Aug. 26.—American troops will stay on the Rhine until the new treaty with Germany is ratified by both parties according to authoritative information received here today.

Ratification will be considered in the American senate and the German reichstag beginning late in September and should require comparatively short time, it was said here. Pending this ratification, however, status of relations between Germany and the United States remains exactly where they have been, it was said.

"Why Southpaws."

The word "southpaw," used frequently in the course of references to baseball games, is a bit of slang which has crept into the language during the last few years—a colloquialism which has behind it rather more of a logical pedigree than most slang words can claim.

That the batter may not have to face the rays of the setting sun at any time of the year, a baseball diamond is usually laid out so that the batter's box faces due east. The pitcher, therefore, faces westward, while his right hand is toward the north and his left hand is toward the south. As the majority of pitchers are right-handed, it was only natural that an exception to this rule should be singled out for a certain specific title—and the name "southpaw" was adopted on account of the usual points of the compass in connection with the diamond itself. The eccentricities of Rube Waddell and other "southpaws" have made the name synonymous with "erratic," so far as baseball language is concerned, though there is no medical support for the theory that left-handed persons are more peculiar than those who use their right hands.

Aerial Time Tables.

So important has become commercial aviation in France that there is being published a monthly time table of all the air services operating in France and allied countries. This time table, known as L'Indicateur Aerien, gives such information as the time of departure and arrival, routes, type of plane employed, weight of baggage allowed, rates, and so on. The little publication appears on the first of every month.—Scientific American.

Call for Much Shelf Room.

Five miles of shelving will be erected in a new building being constructed by the French government, for the filing of more than 100,000 volumes and almost as many pamphlets, etc., which they have collected. The collection of manuscripts, photographs and war records is appalling as to numbers, and there seems to be no limit to the office of collectors.

THE HIGH-WAISTED EFFECT

A harbinger of the falling leaf is this smart tailor model from Paris—severely cut of blue—marine blue—serge and stitched in self-color. The single button and high-waisted effect are the more noticeable features.

GARMENTS FOR THE KIDDIES

Designers Have Outdone Previous Efforts in Providing Winsome Attire for Children.

Children's garments are more alluring this summer than ever before. Designers seem to have outdone all previous efforts along that line. The shops are filled with pretty novelties that may be purchased all ready to wear, or that serve equally well as suggestions for the benefit of the mother who makes her children's clothes.

Little kindergarten designs in the form of small sun-bonneted figures are applied on frocks and aprons to form pockets. These pockets may be made of the same plaid material used for cuffs and sash, or match the dress and embroidery cotton.

There is a very pronounced fancy this summer for hats and bonnets to match all frocks designed for members of the younger generation. When the frock is of the tailored type, a straw hat is often preferred to one made of fabric, but if the dress is at all of the lingerie type, then the preference seems to be for fabric hats or bonnets. Lovely organdie hats are often trimmed with bands or applied motifs of checked gingham. Such a hat may be worn either with an organdie or a gingham frock. Many dainty little hats are made of colored dotted swiss, or of colored dotted swiss in combination with plain color or white.

The short socks carry out the color scheme of hat and frock. Many mothers buy dozens of pairs of the little short socks, watching every bargain table that offers such merchandise, so that every outfit, whether green, yellow, red or other shade may be complete and blend from head to heels.

STYLES IN NEW YORK

Capes for practical use are often made reversible, one side dark serge, the other light canton crepe.

velours is bound on all edges with a bright shade of blue leather.

A midsummer cape suit shows a skirt and cape of white flannel striped in green. The cape is lined in green crepe de chine, this same material being used for the long slip-over blouse worn over the skirt.

A smart sport skirt of wool striped in vivid shades is fringed at the bottom and fastens all the way down the left side with buttons and loops. There is a single huge pocket placed very low at the right side. The wide sash is weighted with wool fringe on the ends.

Jabots of laces or organdies are worn with every strictly tailored suit. Very chic the red leather hat worn with the white flannel sport suit. Red crepe de chine lines the short flaring jacket, the oval shaped panel on front of the skirt is also worked in a red stitchery.

What lovely bathing accessories are seen in the New York shops! Have you already seen the charming separate girdles made entirely of rubber flowers? They are really exquisite and would transform the plainest suit into a thing of beauty. They are lovely in color and as well made as the evening cordelieres.

To carry at the seashore, the leading houses show huge Chinese parasols, painted in exotic colors and boasting exceedingly long handles. They are pretty and must be very practical, affording a real protection for the woman who doesn't swim as much as she parades up and down the beach.

Have you seen the new checked oil gingham bathing suits? They are adorable. The skirt is made of narrow panels that tie on as an apron over the trousers. The blouse has a smart sailor collar, turn-up cuffs and buttons of black olecloth. The cap to match is of checked gingham bound in black olecloth.

One Too Many.

A literary family in which a seventh child had just come was at a country house, and for a time a good deal of the care of the other six children devolved upon the father, who had Spartan ideas as to the upbringing of his sons. One morning he carried his two-year-old to the creek near his home to give him a cold plunge. The child objected lustily to this proceeding, but was firmly held and ducked, notwithstanding.

At the instant of the ducking, however, a brawny hand seized the Spartan father by the shoulder and flung him back, while the angry voice of the farmer, who was his nearest neighbor, roared in his ears:

"Here! None of that! I'll have the law on you for this."

For some time the father endeavored to convince the farmer that he was not trying to drown the child. Even then he wasn't wholly convinced. To the very last minute he kept shaking his head skeptically and saying:

"Well, I dunno about that, I dunno. You got six besides this."—Harper's Magazine.

Powerful X-Ray.

A French scientist, chief of the bureau of radiography for the Paris hospitals, has demonstrated that an X-ray apparatus can photograph subjects through a stone wall more than 25 feet distant from the source of the rays. He has obtained clear photographs of metallic objects, the rays filtering through a marble plate more than an inch thick, 12 inches of oak, four inches of plaster and a sheet of lead one-eighth of an inch thick.

Wives and Children of Presidents.

Of the wives of Presidents of the United States six bore no children—Mrs. Washington, Mrs. Madison, Mrs. Jackson, Mrs. Polk, the second Mrs. Fillmore, and the present Mrs. Wilson. The largest families were those of President and Mrs. William Henry Harrison, who had ten children, and President and Mrs. Hayes, who had eight. President John Tyler had 14 children, seven by each of his two wives.

Francesco Petrarch.

It is said that the great Italian poet, Francesco Petrarch, died, almost exactly to the day, 70 years after his birth. There seem to be conflicting dates regarding his precise day of birth and death, although the variance is very little. One account says that he died July 19, 1374.—Chicago Journal.

Beware of Eye Strain.

Irritability of the stomach, loss of appetite, dyspeptic symptoms after partaking of food, dizziness, nausea and vomiting are often caused by eye strain. After the eyes are examined and glasses are worn the symptoms disappear. Children during the period of school life who frequently suffer from headache, loss of appetite and dizziness and are behind in their work should have their eyes examined and the eye strain relieved by prescribed glasses.

Character Greatest Asset.

Character is the best collateral, said the late J. P. Morgan. Character has been the best asset the American people have possessed. To maintain character should be their chief aim and purpose, and to this end they should devote all effort.

THE HUMAN BODY

Your body has nothing in common with many things recommended to improve health. Study the matter out, think it over, then act.

CHIROPRACTIC

Includes nothing harmful and merely adjusting the displaced parts that interfere with free passage of everything helpful. I can relieve in the majority of human ailments by natural health energy.

DISEASE MISDIRECTED ENERGY

Your body is competent to cure itself. I have proved the statement in recovery through chiropractic adjustment of scores of persons variously afflicted.

Let me examine your case and give you the facts. No charge for consultation.

Beware of Eye Strain.
Irritability of the stomach, loss of appetite, dyspeptic symptoms after partaking of food, dizziness, nausea and vomiting are often caused by eye strain. After the eyes are examined and glasses are worn the symptoms disappear. Children during the period of school life who frequently suffer from headache, loss of appetite and dizziness and are behind in their work should have their eyes examined and the eye strain relieved by prescribed glasses.

Character Greatest Asset.
Character is the best collateral, said the late J. P. Morgan. Character has been the best asset the American people have possessed. To maintain character should be their chief aim and purpose, and to this end they should devote all effort.

THE HUMAN BODY
Your body has nothing in common with many things recommended to improve health. Study the matter out, think it over, then act.

CHIROPRACTIC
Includes nothing harmful and merely adjusting the displaced parts that interfere with free passage of everything helpful. I can relieve in the majority of human ailments by natural health energy.

DISEASE MISDIRECTED ENERGY
Your body is competent to cure itself. I have proved the statement in recovery through chiropractic adjustment of scores of persons variously afflicted.

Let me examine your case and give you the facts. No charge for consultation.

FRIDAY, AUGUST 26, 1921

VISIT YOUR NEIGHBORS

The Dispatch some time ago suggested that the Brainerd business men make community, or "get acquainted" tours to neighboring towns, as is done by practically all other towns in the state. These tours, it was suggested, could be made under the auspices of the Chamber of Commerce, presumably during midsummer, when there is always a lull in business. Our public-spirited citizens are usually quick to respond to any movement for the betterment of the community, but the Chamber of Commerce has taken no action, we understand, and as no one has taken the initiative, nothing has been done in this direction.

The Bemidji Pioneer a few days ago contained an editorial along the same lines, making some excellent suggestions which we herewith reproduce in part:

"Wouldn't it be a mighty good plan for many of our Bemidji folks to get off the state highways a little distance and get acquainted with some of their neighbors when they make their evening or afternoon jaunts into the country? It isn't necessary to go for supper, nor dinner either, although you would very likely be welcome, but these people would be glad to know someone is interested in the work they are doing. You may have to drive a little slower on the side roads—so much the better, you will see more as you go, and you will feel good after having made the acquaintance of some people you didn't know before. You might like them.

Our county is large and it is impossible to get acquainted with every person in it. It might change the minds of some of us in the south end to get a bird's-eye view of what is going on in the rest of the county. We have all visited the park spots and the berry patches—now let us visit our friends a few miles out in the country, and do it before the snow flies. It won't be so easy then."

SOLUTION OF FARM SITUATION

The Minnesota State Department of Agriculture and the Minnesota Farm Bureau federation have issued a joint statement declaring that further extension of credit and not general liquidation "is the only possible course" in dealing with the agricultural situation in the Northwest this year. The statement declares that "the predictions that the grain crop in the Northwest this year will reach 800,000,000 bushels and the consequent liquidation of farmers' obligations, made last week by the Ninth district Federal reserve bank, are unwarranted and colored by a desire for settlement of outstanding debts."

"General liquidation from the agricultural districts this fall is utterly impossible," the statement continues. "Reports on threshing show that the Aug. 1 estimates of the United States department of agriculture were too high, rather than too low. The time has come for the Northwest to face the situation squarely. If an attempt is made to force liquidation, the agriculture of the Northwest will be seriously crippled."

The statement is also signed by J. P. Trowbridge, director of the North Dakota agricultural college experiment station.

P. M.'S MUST VISIT 'ROUND

All first and second class postmasters must stir around and keep abreast of the latest methods in handling mail by visiting at least three other postoffices each year. This is the gist of an order issued by Dr. Hubert Work, first assistant postmaster general, who states that as there is no appropriation available for this purpose, "such visits must necessarily be made without expense to the department." The time so spent will be allowed the postmasters, in addition to their regular annual leave. It is suggested that they take advantage of regular vacations to visit other offices, or to do so when in another city for any other purpose.

The talk of an extra session of the legislature, to provide a state police force to combat bandits, leads Alvah Eastman, of the St. Cloud Journal-Press, to brusquely remark: "It is a fifty-fifty proposition, whether the people are not just as willing to take chances with bandits as an extra session of the legislature."

It appears to be the opinion of agricultural experts that present prices of potatoes in Minnesota will not be lowered, and that there is every indication that they will be higher. Present indications, it is stated, are that the crop throughout the state will be only about 50 per cent of the normal crop.

Dr. Chesley, secretary of the State Board of Health, says the epidemic of infantile paralysis in the state is on the decline. The disease is not as serious this year as in former epidemics, he says; there are fewer cases and a lower percentage of deaths.

The New Richland Star is much disturbed over "the number of abnormally rich men being created in this country," which it gloomily declares "is a matter of grave concern."

AMUSEMENTS

At the New Park

The last word in motion picture development will have been spoken when the latest Ince production, "An Old Fashioned Boy," starring Charles Ray, is presented at the New Park theatre for two days commencing today. The picture carries off honors as the first photoplay photographed without an iris. To those who may be unfamiliar with the technical terms of the studio, an iris is explained as the "fade-out," which generally is seen at the conclusion of each episode and which, to the screen, is the same as the lowering of the curtain on the stage.

Wide interest has been aroused over the unusual quality of a picture without an iris, in that hitherto producers have affirmed that it was necessary to use the iris or "fade" to indicate a turn of events or a transition of action.

Without the iris, the action of "An Old Fashioned Boy" is continuous and audiences will enjoy the novelty of witnessing the unfolding of the entire story without a "break" or "fade."

Doraldina, the Dancer, Starring

Doraldina, known far and wide for her daring interpretations of unfamiliar Hawaiian dances, is the star in "Passion Fruit" which comes as the feature attraction at the Lyceum theatre today only.

This wonderful creature who was so idolized and popular on the stage with her hula dances, brings to the screen both a superb gift for acting and a marvelous dancing ability. Not only that, but she introduces into the many strange dances of the South Sea Islands never hitherto seen. One is a religious dance, called "Dance of the White God," a weird, original movement used by the superstitious natives as part of their ritual.

How she does a wild hula dance to save the man she loves is a moment in a story grippingly tense and absorbingly fascinating, where brute force and woman's will clash for supremacy.

Saturday at the Lyceum

Buck Jones, the cowboy star who has become so popular within the past year, will be at the Lyceum on Saturday in his latest William Fox picture, "The One-Man Trail."

But One Way.

There is but one way to heaven for the learned and the unlearned.—Jeremy Taylor.

From the Laboratory
Thomas A. Edison.

Orange, N.J.
May 31st, 1921.

Sergei Rachmaninoff, Esq.,
22 East 96th Street,
New York City.

My dear Mr. Rachmaninoff:

Under a contract between yourself and Thomas A. Edison, Inc., dated the 24th of April, 1919, it is provided, in effect, that the royalties payable to you, on various selections, which you have recorded for us, shall continue, only so long as you do not make phonographic recordings of such selections for anyone else.

I shall be very glad to give you permission to record these selections for others, without the loss of royalties under the aforesaid agreement. This will give you the opportunity to record your "Prelude in C Sharp Minor" and other important works, which you have already recorded for us.

Yours very truly,

Thomas A. Edison

Facsimile of letter written by Mr. Edison to Rachmaninoff, the noted Russian composer-pianist.

This letter gives talking-machines the right to record Rachmaninoff in his famous "Prelude in C Sharp Minor," and other compositions which he has recorded for Edison.

Will any of them exercise that right? We fear not—the parallel would be too deadly.

But Rachmaninoff has recorded other

selections for the talking-machines. Hear how they sound. Then come in, hear Rachmaninoff on the New Edison, and see what an astounding difference the comparison reveals.

Do it now—because the experience will help you in

Mr. Edison's \$10,000 Contest - Closes Sept 2

Mr. Edison offers 23 prizes totalling \$10,000 in cash, for the phrases which best express the difference between the New Edison and the talking-machines. Ask for folder of information.

If you wish to experiment with the New Edison in your own home, we will gladly loan you an instrument for 3 days. No charge or obligation. Simply use the coupon.

MAN IS STRUCK BY LIGHTNING

Barrows Man Instantly Killed When Lightning Struck His House at 12:30 Last Night

LEAVE WIFE AND SIX CHILDREN Little Son Sleeping in Same Bed is Not Injured—Bolt Jumped from Tree to House

Ed. Aling, of Barrows, was instantly killed at about 12:30 last night when lightning struck his home and followed a loose telephone wire that hung from the ceiling directly over his bed.

One of Mr. Aling's little boys occupied the bed with him but was uninjured. From the appearance of a tree which stands near, the lightning must have struck the tree and jumped to the house.

The mother and six children were in the house but were not injured. The house was damaged only slightly.

Besides a wife and six children the only known relatives is a sister, Mrs. Ada Clancy of Readstown, Wis.

FREE PARKING SPACE

Provided by the New Park Theatre for Patrons—Lights Have Been Arranged

Manager Workman has arranged lights between the theatre and the tracks just suitable for parking cars, while attending the theatre. To reach this space turn off Sixth St., between the Y. M. C. A. and the tracks and follow the signs.

Braingerd people should avail themselves of this parking space as it will overcome to a great extent the congestion on the down town streets. Cars will be safer also as the police will allow nobody to loiter around cars parked at the New Park.

This will also be an added convenience while Front street is torn up, as cars have a hard time getting over this street and parking along the curb is impossible.

NORTHWEST NEWS

Widow Comes to See Hanging
Butte, Mont., Aug. 26.—Steve Byrne and Theodore Chronos were scheduled to hang here today for the murder of Stephen J. Prenatt in December, 1919.

Prenatt was shot to death by the two men who had broken into his home for the purpose of stealing whiskey.

Mrs. Prenatt, the widow, arrived here August 4, and expressed her intention of witnessing the execution. She came here from Oakland, Cal., for that purpose, she said.

Have Special Train

St. Paul, Aug. 26.—Minnesota, North and South Dakota delegates to the American Legion National Convention at Kansas City the last of October may go from the Twin Cities in a special train.

Railroads have arranged a special low fare for delegates to the convention, the rate being less than a third of the regular passenger fare. Twin City posts of the Legion are talking of sending a big body to the convention, and a special train may be arranged.

The convention in Kansas City will be held October 31 and November 1 and 2.

Well Pleased with Rustless Wheat
Canby, Minn., Aug. 26.—F. R. Eaton, farmer in this community, is well pleased with his experiments with rustless Siberian wheat. Last year Eaton's crop yielded 25 bushels and this year there is no sign of rust, despite the prevalence of that disease in the neighborhood.

How Ku Klux Klan Operate
Benidji, Minn., Aug. 26.—How the Ku Klux Klan coves southern communities was described by John M. Culver, formerly of this city, in a letter to a business man here. Culver's letter said that at Navasota, Texas, 390 sheet-clad and masked individuals, each carrying a 45 automatic, descended from the train one night, paraded the town with their banner, "the flaming cross of justice," and then ordered the engineer at the Utilities plant to blow the whistle and continue until ordered to stop. He did.

LETTER OF APPRECIATION

We want to thank one and all, of our many friends, who so kindly and promptly assisted in the search of our little girl Ruby. One does not know until trouble comes, how many friends one has. All that was done was greatly appreciated.

MR. AND MRS. A. J. TEMPLE,
1p Sylvan, Minn.

ADVERTISE IN THE DISPATCH

HOME TOWN CARNIVAL NOT FINANCIAL SUCCESS

But Committee Feels Justified in Claiming Excellent Results Because of Cleaner Shows

THE HOME SHOWS APPRECIATED Financial Report will be Made Public on Return of Treasurer Mraz From Vacation

It was expected that the financial report of the Home Town Carnival company would be ready for publication but the treasurer, A. C. Mraz, has gone on his vacation. The complete financial statement will be published upon his return.

The committee feels that although the carnival was not a success from a financial standpoint, that for a first attempt they are justified in claiming excellent results from their efforts.

The home shows seem to be appreciated and the shows of the Little Giant carnival company were not objectionable although of not very high class. The fact that out of twenty-two concessions carried by the Little Giant carnival company only eight were allowed to run, and these concessions were very poorly patronized, should convince the skeptical that this carnival was indeed different from any carnival ever held in Brainerd.

The riding devices were exceptionally good. The merry-go-round was attractive and well built; the ferris wheel and the aereo swing were very well constructed and there were no complaints of the management of these riding devices.

It is hoped that with the experience gained by the local committee that another year we may have a real home town carnival without the assistance of a carnival company.

WILL HOLD POULTRY SHOW

Officers of Crow Wing County Poultry Association So Decide—Cash Prizes will be Offered

The officers of the Crow Wing County Poultry Association have decided to hold a poultry show late this year, probably during November. The state appropriates four hundred dollars to each county to be used for premiums but this year's appropriation has been cut about 20 per cent. In addition to this cash to be used for premiums, prizes of various kinds will be offered. This will be an opportunity for boys and girls, either on the farm or in the city, to earn money and prizes as a special prize will, no doubt, be given to birds owned and cared for by boys and girls.

The officers of the Association are: President—Sam Hawkins
Vice president—Louis Roth.
Secretary—O. J. Bouma

BAXTER FARM BUREAU UNIT IS LIVE

Is Rapidly Putting That Town on the Map as a Most Enterprising Community

ENTHUSIASTIC MEETINGS HELD As a Result of Valuable Information Obtained Members Raise Prize Produce

Baxter, with the aid of its newly organized Farm Bureau Unit is rapidly coming to the front as a prosperous farming community. The officers of the Unit are J. B. McCabe, president, and Julius Marohn, secretary.

During the winter and early spring many enthusiastic meetings were held at the Baxter school house, and short talks were given by the members in regard to their individual experiences with the raising of vegetables, fruits, grain and dairy products. At many of the meetings business men from Brainerd were present and gave interesting talks in regard to the different ways in which the business men could cooperate with the Farm Bureau Units. As a result of the valuable information obtained at these meetings we find the "Jack-pine farmers" of Baxter taking many, in fact most of the first and second prizes offered in the vegetable exhibit of the Brainerd Home Town Carnival, and they are now looking forward to capturing a few of the prizes offered at the Crow Wing county fair in September.

N. D. Rainfall Above Average

Fargo, N. D., Aug. 26.—Rainfall in North Dakota for the four months ending in July averaged six-tenths of an inch above the ten-year average, according to reports from the thirteen demonstration farms of the Agricultural college extension department.

The comparisons range from 6.11 inches above normal at Larimore, Grand Forks county, to 3.50 inches below at Dawson, Kidder county, and Hazelton, Emmons, and to almost exactly equal to the ten-year average at Lakota in Nelson county.

Evangelical Ladies Aid

The Ladies Aid of the Evangelical church, Forsythe street and Fourth avenue have decided to hold their annual supper and sale in the Elks hall, September 30th. Other announcements will follow later.

ACTION OF SHOP MEN COMMENDABLE

Probably the most interesting incident in connection with the search for little Ruby Temple was the attitude of the men employed by the Northern Pacific railway company at their shops.

It is reported that they would gather in groups to discuss ways and means of getting out to the Temple home and then some one would say "Let's Go," with the result that they punched the clock and walked out.

A few of them returned in time to work in the afternoon but to most of them it meant the day off.

Paid Fine For Transporting Fight Pictures

(By United Press)

Minneapolis, Aug. 26.—Clarence E. Gray, of New York, today paid a fine of \$1,000 for transportation of the Dempsey-Carpentier fight across the state line and announced the picture will be shown as soon as possible.

Judge Booth assessed the maximum fine under the law forbidding fight pictures being carried from one state to another.

Gray said the pictures should more than pay the fine with one day's showing.

Postmaster Arrested

Mandan, N. D., Aug. 26.—J. C. Evans, postmaster at Beulah, has been arrested for misuse of funds.

W. K. Pearson, postoffice inspector of St. Paul said Evans appropriated for his own use \$365 to Beulah citizens in exchange for redeemed war savings stamps. Evans is the fourth postmaster in this district to be indicted recently for misuse of government funds.

AUGUST SALE 1 4 OFF LAST CUT in PRICES

Protect Your Savings by
Attending This Sale Early

We want to impress upon you the importance of attending this sale early. Do not wait until the last minute to make a selection, as there is a possibility you may be disappointed. We have gone over our whole stock—reduced everything one-quarter in price; are sure this will create a big selling; so rather than wait and be disappointed, come first and have the pick of our complete stock. Big values await you, come in and profit by them!

For lack of space we only quote prices. The following goods go on sale Saturday: One Genuine Guaranteed Brass Bed, 2-inch continuous post with inch filler, known as the ribbon pattern, for only \$19.95. Genuine Guaranteed Brass Bed, 3-inch post with 2-inch filler (one only) for \$29.95. Sagless Springs, guaranteed for 25 years, \$9.95. Fancy Tick, 45 lbs pure white cotton felt mattress, \$9.95. Hundreds of bargains that must be seen before you realize what we are offering.

CASH AND CARRY

This is the time for canning fruit. We were fortunate enough to be in the market when we could get real bargains and we secured 75 dozen Mason Jars which we can offer at the low price of 90c dozen for Pint Jars, \$1.00 dozen for Quart Jars and \$1.25 per dozen for 1/2 Gal. Jars. Be sure to come and see for yourself.

Saturday night between the hours of 6:30 and 8 P. M. we will give away ABSOLUTELY FREE a 75c SCOOTER to any child under 12 years old, who is accompanied by one or both parents.

MAN IS STRUCK BY LIGHTNING

Barrows Man Instantly Killed When
Lightning Struck His House at
12:30 Last Night

LEAVE WIFE AND SIX CHILDREN Little Son Sleeping in Same Bed is Not Injured—Bolt Jumped from Tree to House

Ed. Ailing, of Barrows, was instant-
ly killed at about 12:30 last night
when lightning struck his home and
followed a loose telephone wire that
hung from the ceiling directly over
his bed.

One of Mr. Ailing's little boys oc-
cupied the bed with him but was un-
injured. From the appearance of a
tree which stands near, the lightning
must have struck the tree and jump-
ed to the house.

The mother and six children were
in the house but were not injured.
The house was damaged only slightly.

Besides a wife and six children the
only known relatives is a sister,
Mrs. Ada Clancy of Readstown, Wis.

FREE PARKING SPACE

Provided by the New Park Theatre
for Patrons—Lights Have
Been Arranged

Manager Workman has arranged
lights between the theatre and the
tracks just suitable for parking cars,
while attending the theatre. To
reach this space turn off Sixth St.,
between the Y. M. C. A. and the
tracks and follow the signs.

Braierd people should avail them-
selves of this parking space as it will
overcome to a great extent the con-
gestion on the down town streets.
Cars will be safer also as the police
will allow nobody to loiter around
cars parked at the New Park.

This will also be an added con-
venience while Front street is torn up,
as cars have a hard time getting over
this street and parking along the
curb is impossible.

NORTHWEST NEWS

Widow Comes to See Hanging
Butte, Mont., Aug. 26.—Steve Byrne
and Theodore Chronos were sched-
uled to hang here today for the mur-
der of Stephen J. Prenatt in Decem-
ber, 1919.

Prenatt was shot to death by the
two men who had broken into his
home for the purpose of stealing
whiskey.

Mrs. Prenatt, the widow, arrived
here August 4, and expressed her in-
tention of witnessing the execution.
She came here from Oakland, Cal., for
that purpose, she said.

Have Special Train

St. Paul, Aug. 26.—Minnesota, North
and South Dakota delegates to the
American Legion National Convention
at Kansas City the last of October
may go from the Twin Cities in a spe-
cial train.

Railroads have arranged a special
low fare for delegates to the conven-
tion, the rate being less than a third
of the regular passenger fare. Twin
City posts of the Legion are talking
of sending a big body to the conven-
tion, and a special train may be ar-
ranged.

The convention in Kansas City will
be held October 31 and November 1
and 2.

Well Pleased with Rustless Wheat

Canby, Minn., Aug. 26.—F. R. Eaton,
farmer in this community, is well
pleased with his experiments with
rustless Siberian wheat. Last year
Eaton's crop yielded 25 bushels and
this year there is no sign of rust,
despite the prevalence of that disease
in the neighborhood.

How Ku Klux Klan Operate

Benidji, Minn., Aug. 26.—How the
Ku Klux Klan coves southern com-
munities was described by John M.
Culver, formerly of this city, in a let-
ter to a business man here. Culver's
letter said that at Navasota, Texas,
300 sheet-clad and masked individ-
uals, each carrying a 45 automatic,
descended from the train one night,
paraded the town with their banner,
"the flaming cross of justice," and then
ordered the engineer at the utilities
plant to blow the whistle and continue
until ordered to stop. He did.

LETTER OF APPRECIATION

We want to thank one and all, of
our many friends, who so kindly and
promptly assisted in the search of
our little girl Ruby. One does not
know until trouble comes, how many
friends one has. All that was done
was greatly appreciated.

ADVERTISE IN THE DISPATCH

HOME TOWN CARNIVAL NOT FINANCIAL SUCCESS

But Committee Feels Justified in
Claiming Excellent Results Be-
cause of Cleaner Shows

THE HOME SHOWS APPRECIATED Financial Report will be Made Public on Return of Treasurer Mraz From Vacation

It was expected that the financial
report of the Home Town Carnival
company would be ready for publi-
cation but the treasurer, A. C. Mraz,
has gone on his vacation. The com-
plete financial statement will be pub-
lished upon his return.

The committee feels that although
the carnival was not a success from
a financial standpoint, that for a first
attempt they are justified in claiming
excellent results from their efforts.

The home shows seem to be appre-
ciated and the shows of the Little
Giant carnival company were not ob-
jectionable although of not very high
class. The fact that out of twenty-
two concessions carried by the Little
Giant carnival company only eight
were allowed to run, and these con-
cessions were very poorly patronized,
should convince the skeptical that
this carnival was indeed different
from any carnival ever held in Brain-
erd.

The riding devices were exception-
ally good. The merry-go-round was
attractive and well built; the ferris
wheel and the aereo swing were very
well constructed and there were no
complaints of the management of
these riding devices.

It is hoped that with the experi-
ence gained by the local committee
that another year we may have a real
home town carnival without the as-
sistance of a carnival company.

WILL HOLD POULTRY SHOW

Officers of Crow Wing County Poultry
Association So Decide—Cash
Prizes will be Offered

The officers of the Crow Wing
County Poultry Association have de-
cided to hold a poultry show late this
year, probably during November. The
state appropriates four hundred dol-
lars to each county to be used for
premiums but this year's appropriation
has been cut about 20 per cent.
In addition to this cash to be used for
premiums, prizes of various kinds will
be offered. This will be an oppor-
tunity for boys and girls, either on
the farm or in the city, to earn mon-
ey and prizes as a special prize will,
no doubt, be given to birds owned
and cared for by boys and girls.

The officers of the Association are:
President—Sam Hawkins
Vice president—Louis Roth.
Secretary—O. J. Bouma

BAXTER FARM BUREAU UNIT IS LIVE

Is Rapidly Putting That Town on the
Map as a Most Enterprising
Community

ENTHUSIASTIC MEETINGS HELD As a Result of Valuable Information Obtained Members Raise Prize Produce

Baxter, with the aid of its newly
organized Farm Bureau Unit is rap-
idly coming to the front as a pros-
perous farming community. The of-
ficers of the Unit are J. B. McCabe,
president, and Julius Marohn, sec-
retary.

During the winter and early spring
many enthusiastic meetings were
held at the Baxter school house, and
short talks were given by the mem-
bers in regard to their individual ex-
periences with the raising of vege-
tables, fruits, grain and dairy pro-
ducts. At many of the meetings
business men from Brainerd were
present and gave interesting talks in
regard to the different ways in which
the business men could cooperate with
the Farm Bureau Units. As a re-
sult of the valuable information ob-
tained at these meetings we find the
"Jack-pine farmers" of Baxter tak-
ing many, in fact most of the first
and second prizes offered in the ve-
getable exhibit of the Brainerd Home
Town Carnival, and they are now
looking forward to capturing a few
of the prizes offered at the Crow
Wing county fair in September.

N. D. Rainfall Above Average

Fargo, N. D., Aug. 26.—Rainfall in
North Dakota for the four months
ending in July averaged six-tenths of
an inch above the ten-year average,
according to reports from the thir-
teen demonstration farms of the Agri-
cultural college extension department.

The comparisons range from 6.11
inches above normal at Larimore,
Grand Forks county, to 3.50 inches
below at Dawson, Kidder county, and
Hazelton, Emons, and to almost ex-
actly equal to the ten-year average at
Lakota in Nelson county.

BURNS NAMED TO SUCCEED FLYNN

NEW CHIEF OF INVESTIGATION OF DEPARTMENT OF JUSTICE WELL KNOWN TO HARDING.

IS ALSO DAUGHERTY'S FRIEND

Complete Reorganization of the Bureau Is Expected—Appointee Won Fame as Detective in a Number of Very Important Cases.

By EDWARD B. CLARK.

Washington.—No surprise was expressed in Washington when Attorney General Daugherty announced the other day that he had appointed William J. Burns of New York to be director of the bureau of investigation of the department of justice. It had been rumored for several months that Mr. Burns would be selected to succeed William J. Flynn. He and Mr. Daugherty are personal friends, and he is also a friend of President Harding and supported him in the campaign of 1920.

In making the announcement, the attorney general said:

"I have known Mr. Burns personally for thirty years and have watched him develop in his specialty. He is familiar with all the departments of the government, is an intelligent and courageous man, and at this time especially is considered to be as high a class a man as could be secured to assume the important duties assigned him. The bureau will be reorganized as expeditiously as possible and brought to the highest point of efficiency.

Severs Agency Connection.

"Mr. Burns has severed his connection with the Burns Detective Agency, and will come to Washington and devote his entire time to the service. It is the policy of this department, well understood by Mr. Burns and highly recommended by him, that the department of justice establish the most cordial relations with police officers throughout the entire country, and, in fact, throughout the entire world, to the end that there may be co-operation, and that life, property and the rights of the people may be preserved and protected.

"No partiality will be shown in co-operating with police or other law enforcement officers, public or private, but the best plan that can be conceived will be adopted and carried out to see that the law is enforced and the best order possible prevail throughout the country, in so far as the government and the department of justice are concerned. The President and I have known Mr. Burns for many years and know his ability and efficiency."

Mr. Daugherty believes a plan for co-ordinating all the investigating agencies of the government under the department of justice can be worked out, but said the appointment of Mr. Burns did not necessarily mean this would be done.

Complete Reorganization Forecast.

Mr. Burns will receive \$7,500 a year. According to the attorney general he is expected to make complete reorganization of the bureau, reduce the force and bring it to a high point of efficiency.

Mr. Burns served with the secret service from 1889 until 1907, and was considered during a great part of that time the star man of the force. His first big job, and perhaps the biggest that he has to his credit, came in 1898, when he solved the mystery of the Monroe-head \$100 silver certificates. These bills were so expertly counterfeited that government officials at first declared them genuine. Burns discovered that they were made by splitting \$1 notes, washing them and photo-engraving them into certificates of \$100 denominations.

He sent four men to prison for counterfeiting these notes and a fifth for attempting to bribe him.

Mr. Burns' work in connection with the dynamiting of the Los Angeles Times in October, 1910, when twenty-one persons were killed, is considered his second greatest feat. He was retained on this job by the mayor of Los Angeles. After seven months of work he caught and convicted the two McNamara brothers and two other men implicated in the dynamiting.

It was at the request of Secretary of the Interior Hitchcock in 1903 that President Roosevelt assigned Burns to the land fraud investigation. As a result of his discoveries many sensational convictions were made and the land fraud game was put out of commission.

Mr. Burns was born in Baltimore on

October 19, 1861. His family moved to Columbus, Ohio, where his father became police commissioner. Through this association young Burns, who had attended a commercial college, gained his first knowledge in criminology.

May Have Found Lost Mine.

A rich emerald vein, lost years ago, has been rediscovered. A doctor from Cartagena, Colombia, has specimens aggregating 500 karats. He tells a story of the rediscovery of a rich emerald vein at Clivor, a short distance from Bogota. Spaniards who came to the new world back in the sixteenth century were the first to work this territory, and they and their descendants brought forth precious and rare jewels until about the year 1810, when they were driven out, and took with them the secret of the vein. A month ago a vein believed to be the original one was rediscovered.

BATTLESHIP FAR FROM OBSOLETE

ARMY AND NAVY BOARD FINDS THAT IT STILL IS BACKBONE OF THE MODERN NAVY.

RESULTS OF BOMBING TESTS

Report Says They Demonstrated the Growing Importance of Aviation in Warfare, but Battleship Remains Greatest Factor of Strength.

By EDWARD B. CLARK.

Washington.—According to the joint army and navy board that observed and has reported on the aerial bombing tests by the army and navy off the Virginia capes, the battleship is not obsolete but must still be considered the backbone of the navy.

The report, approved by Secretary of War Weeks and Secretary of the Navy Denby, says the bombing tests demonstrated the importance of aviation, but the battleship still is the nation's chief reliance at sea, despite the development of airplanes as weapons of offense and defense.

Analysis of Bombing Tests.

The board, as to the effect of aircraft on future naval construction, finds as follows:

(A) The mission of the navy is to control vital lines of transportation upon the sea. If no opposition is met from enemy naval vessels, this mission can be accomplished without entering an enemy's coast zone, within which aircraft based on shore or in sheltered harbors are effective.

(B) Without an effective navy in time of war, a nation must submit to

an economic blockade fatal to its trade and the importation of necessary materials for the production of war supplies.

(C) If heavier than air craft are to be effective in naval warfare, they must have greater mobility and since their radius of action is not great, additional mobility must be obtained by providing mobile bases—i. e., aircraft carriers.

(D) So far as known, no planes large enough to carry a bomb effective against a major ship have been flown from or landed on an airplane carrier at sea. It is probable, however, that future development will make such operations practicable.

(E) Even in the present state of development the aircraft carrier, as exemplified by the Argus of the British navy, is a type essential to the highest efficiency of the fleet.

(F) Aircraft carriers are subject to attack by vessels carrying guns, torpedoes or bombs and will require, as other types of vessels require, the eventual support of the battleship.

Battleship Rules Sea.

(G) The battleship still is the backbone of the fleet and the bulwark of the nation's sea defense, and will so remain so long as the safe navigation of the sea for purposes of trade or transportation is vital to success in war.

(H) The airplane, like the submarine, destroyer and mine has added to the dangers to which battleships are exposed, but has not made the battleship obsolete. The battleship still remains the greatest factor of naval strength.

(I) The development of aircraft, instead of furnishing an economical instrument of war leading to the abolition of the battleship, has only added to the complexity of naval warfare.

(J) The aviation and ordnance experiments conducted with the ex-German vessels as targets have proved that it has become imperative as a matter of national defense to provide

for the maximum possible development of aviation in both the army and navy.

They have also proved, the report continues, the necessity for aircraft carriers of the maximum size and speed to supply our fleet with the offensive and defensive power which aircraft provide, within their radius of action, as an effective adjunct of the fleet. It is likewise essential that effective anti-aircraft armament be developed.

Hindus Honor Musical Profession.

Musicians in India occupy a high place in the social scale, ranking with other scholars and artists as worthy the bow of a Raja or Maharaja. None of the sciences or arts has more traditional prestige than music.

One of the stories in Indian history is of the great musician, Haridas, who lived at Mathura. Haridas was an ascetic, and thousands came to hear him play. His fame reached the court of Akbar, who sent many messengers directing Haridas to come to his palace. The royal summons always was ignored. Then Akbar urged Tansen to use his influence in persuading Haridas to leave his retreat.

Tansen replied that Haridas was greater than kings and emperors, obeying only his sacred art. Akbar joined the pilgrimage to Haridas' home, where he stood humbly, awed by the great musician's inspired music.

Enlightenment.

"You trust the wisdom of the plain people, do you not?"

"Yes," replied Senator Sorghum. "But the wisest minds need to be educated. I naturally place most confidence in the plain people who have been under my own instruction."

Woman's Tears.

A woman's tears are the greatest water power known to man—Atchafalaya (Kan.) Mail.

INTERESTING SPORT NOTES

Poughkeepsie regatta will very likely be a four-mile test in 1922.

Vincent Richards defeated Ryan T. Hayes for the Western tennis title at Indianapolis.

Frank Troch has won the trapshooting championship of Washington five times in the last six years.

The fond mother who shuddered at the thought of football now is reconciled to tennis at 110 in the sun.

Gordon Morrison, former Harvard football center, has been appointed football coach at Cornell college, Iowa.

Madison J. Jeffery, former Tufts college athlete, has been appointed head coach of athletics at Northeastern college.

Memphis, Tenn., has been awarded next year's international swimming contests under the auspices of the Amateur Athletic union.

Elmer Jones of Baltimore, Md., a star member of Johns Hopkins university football team, has been appointed a cadet at the West Point Military academy.

Charles A. Stoneham and John J. McGraw of the New York Nationals, have disposed of their majority stock holdings in the Cuba-American Jockey and Automobile club.

The Great Rose, a three-year-old filly by Peter the Great, has been sold by Stoughton A. Fletcher of the Laurel Hill farm, Indianapolis, to Tom Taggart, Jr., of French Lick, for \$15,000.

Peanut Known as Goober Pea. The territory of Tidewater Virginia grows more peanuts than any other part of the United States. To that territory may be added parts of the Carolinas, also great peanut-growing states. Some places in the Carolinas the peanut is referred to as "the goober pea."

Make the Pennies Bigger

When James Buchanan was President and tall beaver hats were in vogue; when gentlemen wore broad cravats and ladies wore hoop skirts the pennies they tossed to children were as big as quarters. But the cart-wheel coppers your grandfather got for keeping his lace collar clean were not as big in buying power as the pennies of today.

A penny then might buy a pastry, or ten of them to take one to the Fair, but your great-uncle couldn't have gone to a movie at any price.

Your great-gran'ther may have driven the fastest horse in the country and paid a tidy sum for it. But the price of a stable of thoroughbreds would not have bought him a fiver.

Sixty years ago the ladies could go shopping for dry goods and buy silks that would make you green with envy, linens that were linens and broadcloths that beggar description. But what their favorite store did not have they usually got along without.

You can pick up your daily newspaper and in fifteen minutes you can know what the different shops are offering in fabrics, patterns, varieties and qualities that great-grandmother never dreamed could be gathered together under any conditions.

Times have changed, and so have merchandise and business methods. One of the influences that has helped to bring about so much of change,

that has helped to multiply opportunities and increased the spending size of our pennies is advertising.

very merchant, every manufacturer knows that advertising materially reduces selling costs by increasing the demand for and the distribution of the products of hundreds of thousands of mills. Indeed many of the things we count today as necessities or simple luxuries could not be made and sold at their reasonable prices except as advertising has created a broad market for them, making millions of sales at little prices and little profits.

And so you owe very much to advertising. You owe much to the people of yesterday who have read and been influenced by past advertising and so have made possible the economies and varieties and wide distribution of merchandise that you enjoy.

You owe present advertising a thorough reading. A greater familiarity with advertising, with advertisers and advertised merchandise makes continually for the increasing size of your pennies.

BURNS NAMED TO SUCCEED FLYNN

NEW CHIEF OF INVESTIGATION OF DEPARTMENT OF JUSTICE WELL KNOWN TO HARDING.

IS ALSO DAUGHERTY'S FRIEND

Complete Reorganization of the Bureau Is Expected—Appointee Won Fame as Detective in a Number of Very Important Cases.

By EDWARD B. CLARK.

Washington.—No surprise was expressed in Washington when Attorney General Daugherty announced the other day that he had appointed William J. Burns of New York to be director of the bureau of investigation of the department of justice. It had been rumored for several months that Mr. Burns would be selected to succeed William J. Flynn. He and Mr. Daugherty are personal friends, and he is also a friend of President Harding and supported him in the campaign of 1920.

In making the announcement, the attorney general said: "I have known Mr. Burns personally for thirty years and have watched him develop in his specialty. He is familiar with all the departments of the government, is an intelligent and courageous man, and at this time especially is considered to be as high a class a man as could be secured to assume the important duties assigned him. The bureau will be reorganized as expeditiously as possible and brought to the highest point of efficiency."

Severs Agency Connection.

"Mr. Burns has severed his connection with the Burns Detective Agency, and will come to Washington and devote his entire time to the service. It is the policy of this department, well understood by Mr. Burns and highly recommended by him, that the department of justice establish the most cordial relations with police officers throughout the entire country, and, in fact, throughout the entire world, to the end that there may be co-operation, and that life, property and the rights of the people may be preserved and protected."

"No partiality will be shown in co-operating with police or other law enforcement officers, public or private, but the best plan that can be conceived will be adopted and carried out to see that the law is enforced and the best order possible prevail throughout the country, in so far as the government and the department of justice are concerned. The President and I have known Mr. Burns for many years and know his ability and efficiency."

Mr. Daugherty believes a plan for co-ordinating all the investigating agencies of the government under the department of justice can be worked out, but said the appointment of Mr. Burns did not necessarily mean this would be done.

Complete Reorganization Forecast.

Mr. Burns will receive \$7,500 a year. According to the attorney general he is expected to make complete reorganization of the bureau, reduce the force and bring it to a high point of efficiency.

Mr. Burns served with the secret service from 1889 until 1907, and was considered during a great part of that time the star man of the force. His first big job, and perhaps the biggest that he has to his credit, came in 1898, when he solved the mystery of the Monroe-head \$100 silver certificates. These bills were so expertly counterfeited that government officials at first declared them genuine. Burns discovered that they were made by splitting \$1 notes, washing them and photo-engraving them into certificates of \$100 denominations.

He sent four men to prison for counterfeiting these notes and a fifth for attempting to bribe him.

Mr. Burns' work in connection with the dynamiting of the Los Angeles Times in October, 1910, when twenty-one persons were killed, is considered his second greatest feat. He was retained on this job by the mayor of Los Angeles. After seven months of work he caught and convicted the two McNamara brothers and two other men implicated in the dynamiting.

It was at the request of Secretary of the Interior Hitchcock in 1903 that President Roosevelt assigned Burns to the land fraud investigation. As a result of his discoveries many sensational convictions were made and the land fraud game was put out of commission.

—Mr. Burns was born in Baltimore on

October 19, 1831. His family moved to Columbus, Ohio, where his father became police commissioner. Through this association young Burns, who had attended a commercial college, gained his first knowledge in criminology.

May Have Found Lost Mine.

A rich emerald vein, lost years ago, has been rediscovered. A doctor from Cartagena, Colombia, has specimens aggregating 500 karats. He tells a story of the rediscovery of a rich emerald vein at Chivor, a short distance from Bogota. Spaniards who came to the new world back in the sixteenth century were the first to work this territory, and they and their descendants brought forth precious and rare levels until about the year 1810, when they were driven out, and took with them the secret of the vein. A month ago a vein believed to be the original rich one was rediscovered.

BATTLESHIP FAR FROM OBSOLETE

ARMY AND NAVY BOARD FINDS THAT IT STILL IS BACKBONE OF THE MODERN NAVY.

RESULTS OF BOMBING TESTS

Report Says They Demonstrated the Growing Importance of Aviation in Warfare, but Battleship Remains Greatest Factor of Strength.

By EDWARD B. CLARK.

Washington.—According to the joint army and navy board that observed and has reported on the aerial bombing tests by the army and navy off the Virginia capes, the battleship is not obsolete but must still be considered the backbone of the navy.

The report, approved by Secretary of War Weeks and Secretary of the Navy Denby, says the bombing tests demonstrated the importance of aviation, but the battleship still is the nation's chief reliance at sea, despite the development of airplanes as weapons of offense and defense.

Analysis of Bombing Tests.

The board, as to the effect of aircraft on future naval construction, finds as follows:

(A) The mission of the navy is to control vital lines of transportation upon the sea. If no opposition is met from enemy naval vessels, this mission can be accomplished without entering an enemy's coast zone, within which aircraft based on shore or in sheltered harbors are effective.

(B) Without an effective navy in time of war, a nation must submit to

an economic blockade fatal to its trade and the importation of necessary materials for the production of war supplies.

(C) If heavier than air craft are to be effective in naval warfare, they must have greater mobility and since their radius of action is not great, additional mobility must be obtained by providing mobile bases—i. e., aircraft carriers.

(D) So far as known, no planes large enough to carry a bomb effective against a major ship have been flown from or landed on an airplane carrier at sea. It is probable, however, that future development will make such operations practicable.

(E) Even in the present state of development the aircraft carrier, as exemplified by the Argus of the British navy, is a type essential to the highest efficiency of the fleet.

(F) Aircraft carriers are subject to attack by vessels carrying guns, torpedoes or bombs and will require, as other types of vessels require, the eventual support of the battleship.

Battleship Rules Sea.

(G) The battleship still is the backbone of the fleet and the bulwark of the nation's sea defense, and will so remain so long as the safe navigation of the sea for purposes of trade or transportation is vital to success in war.

(H) The airplane, like the submarine, destroyer and mine has added to the dangers to which battleships are exposed, but has not made the battleship obsolete. The battleship still remains the greatest factor of naval strength.

(I) The development of aircraft, instead of furnishing an economical instrument of war leading to the abolition of the battleship, has only added to the complexity of naval warfare.

(J) The aviation and ordnance experiments conducted with the ex-German vessels as targets have proved that it has become imperative as a matter of national defense to provide

for the maximum possible development of aviation in both the army and navy.

They have also proved, the report continues, the necessity for aircraft carriers of the maximum size and speed to supply our fleet with the offensive and defensive power which aircraft provide, within their radius of action, as an effective adjunct of the fleet. It is likewise essential that effective anti-aircraft armament be developed.

Hindus Honor Musical Profession.

Musicians in India occupy a high place in the social scale, ranking with other scholars and artists as worthy of the bow of a Raja or Maharaja. None of the sciences or arts has more traditional prestige than music.

One of the stories in Indian history is of the great musician, Haridas, who lived at Mathura. Haridas was an ascetic, and thousands came to hear him play. His fame reached the court of Akbar, who sent many messengers directing Haridas to come to his palace. The royal summons always was ignored. Then Akbar urged Tansen to use his influence in persuading Haridas to leave his retreat.

Tansen replied that Haridas was greater than kings and emperors, obeying only his sacred art. Akbar joined the pilgrimage to Haridas' home, where he stood humbly, awed by the great musician's inspired music.

Enlightenment.

"You trust the wisdom of the plain people, do you not?"

"Yes," replied Senator Sorghum. "But the wisest minds need to be educated. I naturally place most confidence in the plain people who have been under my own instruction."

Woman's Tears.

A woman's tears are the greatest water power known to man—Atchafalaya (Kan.) Mail.

Make the Pennies Bigger

When James Buchanan was President and tall beaver hats were in vogue; when gentlemen wore broad cravats and ladies wore hoop skirts the pennies they tossed to children were as big as quarters. But the cart-wheel coppers your grandfather got for keeping his lace collar clean were not as big in buying power as the pennies of today.

A penny then might buy a pastry, or ten of them to take one to the Fair, but your great-uncle couldn't have gone to a movie at any price.

Your great-grandfather may have driven the fastest horse in the country and paid a tidy sum for it. But the price of a stable of thoroughbreds would not have bought him a flivver.

Sixty years ago the ladies could go shopping for dry goods and buy silks that would make you green with envy, linens that were linens and broadcloths that beggar description. But what their favorite store did not have they usually got along without.

You can pick up your daily newspaper and in fifteen minutes you can know what the different shops are offering in fabrics, patterns, varieties and qualities that great-grandmother never dreamed could be gathered together under any conditions.

Times have changed, and so have merchandise and business methods. One of the influences that has helped to bring about so much of change,

that has helped to multiply opportunities and increased the spending size of our pennies is advertising.

very merchant, every manufacturer knows that advertising materially reduces selling costs by increasing the demand for and the distribution of the products of hundreds of thousands of mills. Indeed many of the things we count today as necessities or simple luxuries could not be made and sold at their reasonable prices except as advertising has created a broad market for them, making millions of sales at little prices and little profits.

And so you owe very much to advertising. You owe much to the people of yesterday who have read and been influenced by past advertising and so have made possible the economies and varieties and wide distribution of merchandise that you enjoy.

You owe present advertising a thorough reading. A greater familiarity with advertising, with advertisers and advertised merchandise makes continually for the increasing size of your pennies.
